Marshall and Augustus Smith, who are attached to the senate in minor official capacities. The party came direct from Chicago, and after taking breakfast at the Tacoma hotel boarded the United States fish commission steamer, the Albatross, which dropped anchor in the bay Friday evening, and departed for Alaska. They expect to return about August 1. The senators refused to be interviewed, stating that they might have something to say on their return from the trip.

C. T. R. Oliviere, on remand, charged with resisting an officer in the execution of his duty, was again before the magistrate this morning.

Officer Lindsay stated that the defendant with another C Battery man created a disturbance on Broad street. Defendant was under the influence of liquor, but was not drunk; called on a citizen to assist in arresting defendant. Did not wish to hurt defendant.

Major Peters said the defendant was his servant; he was a good man until he became intoxicated.

Supt. Sheppard said he wished to put a stop to the bystanders interfering with the police. He did not wish to send the men to gaol and would ask for a small fine. The defendant was fined $10, William Guthrer, another batteryman, was fined $5 for a similar offence.

Everything Goes.

In the Nanaimo city council on Monday evening the following occurred:

Ald. Webb wished to know if there was any law to prevent cattle running at large.

His worship said there was not, and if there was it would entail the cost of keeping a pound and employing a pound master.

THE CRONIN MURDER.

Burke Committed for Extradition at Winnipeg—Remarks of Judge.

Unlucky Johnstown Has Another Flood—Fifteen More Lives Lost.

[By Postal Telegraph.]

London, July 10.—Before the Parnell commission to-day, Michael Davitt complained that some one desiring to injure the Irish in the eyes of the public had placed two bogus dynamite machines within the precincts of the court, whereupon the *Post* in a sensational article had indicated the danger which the court incurred and pointed out how easily the desperate enemies of England, who had recently testified before the commission court, could destroy the building with dynamite. Davitt spoke with much vehemence, asserting at the conclusion of his remarks that the affair had been planned by Houston and Le Caron with the intention of discrediting the Irish and bolstering up the case of the *Times*. Presiding Justice Hannen said he understood and appreciated Davitt's strong feeling in the matter, but he must take the proper course, and make inquiries and prove his allegations before putting them forth. He, himself, regarded the matter as a silly hoax.

NEW CABLES LANDED.

Ottawa, July 8.—The Minister of Customs has ordered that facilities be given to land new cables in Dover Bay, N. S., for connection with the New York land lines. The cables include the extensions of the two Western Union cables of 1881, between England and Canada, terminating at Canso. The new direct French cable has been landed at Fox Island, five miles from Canso.

ST. JOHN TO CELEBRATE.

St. John, N. B., July 9.—The completion of the New Brunswick link of the Canadian Pacific Railroad and the civic union of St. John, N. B., with Portland, Me., is to be celebrated by a grand fete, beginning July 22d and lasting ten days. The festivities will embrace sporting contests and a grand electrical celebration.

HALIFAX HAPPENINGS.

Halifax, July 9—Nesl, White & Co., wholesale dry goods, have suspended, with liabilities of about sixty thousand. The stock of George Forsythe & Co., wholesale grocers, was damaged by fire. Loss $6,000, covered.

Allan McQuarrie, son of Rev. Allan McQuarrie, late of Kingston, fell from an excursion steamer in Pictou harbor last night and was drowned.

MORE PENSIONS.

Ottawa, July 10—Mr. Grant Powell, Under Secretary of State, has been superannuated. He intends leaving for England on the 25th inst. It is understood that Mr. Dansereau, Mr. Chapleau's special friend, will get the place.

DESERTED.

Kingston, July 10—Privates Burton and Wilson, members of the band, "A" Battery, deserted last week. They have gone to the United States.

MINISTER WINED.

Quebec, July 10.—Hon. Mr. Costigan was dined and wined by a few admirers at the Charlesburg last night. He left for New Brunswick to-day.

MERCIER'S DOINGS.

Montreal, July 10.—Hon. Mr. Mercier will remain in the city for a month only. For a holiday he will take an occasional run into the country.

SUDDEN DEATH.

Mrs. Hart, aged 63, wife of a St. Peter street optician, fell down stairs this morning and was picked up dead. Death is supposed to be from heart disease. A few days ago a grandson died.

SCHEE TO BE EXTRADITED.

Winnipeg, July 10.—Judge Bain to-day committed Martin Burke for extradition. In rendering judgment his lordship said he would hesitate to commit the prisoner to a jury on the evidence submitted, but he was only committing him to trial. He hoped Burke could explain his actions when he got back to Chicago. An appeal to the full court will be made.

HIS FUNERAL.

Montreal, July 10—The funeral of the late Chas. McFall, who met his death at Brockville, on June 30th, by the sinking of the ferry boat Armstrong, took place to-day and was attended by a large number of friends, many of whom accompanied the body to Bateau, where the deceased was born and laid to rest.

UNLUCKY JOHNSTOWN.

Albany, July 10—A special to the *Union* from Johnstown, N. Y., says that 15 persons were carried down Cayandetta creek last night. Four bodies were recovered this morning. Heavy rains last night choked the streams in the flooded districts. Schriver's large mill was carried away. Twenty people were on Ferry street bridge when the arch fell into the rushing torrent which was filled with wreckage of humanity whose cries for help alarmed the residents near by. Chief McDonald with President Northup of the village police, Justice Andersen and others organized a searching expedition; lanterns were procured and the parties went along the stream with ropes to assist in rescuing. One person was seen splashing and plunging in the water near the Johnstown, Fonda and Gloversville railway bridge, one quarter of a mile down the stream. As he floated past those on shore he cried for "God's sake help me." He was swept by in a current so close to shore that a man who was in a boat secured to a pile of wreckage got hold of him, but owing to the swift current was unable to hold him and he was swept under floating driftwood.

TWO OTHER PERSONS

came down a minute after clinging to a plank and shouting for help, but were swept out of sight below the railroad bridge. Among those in the party who stood on shore were Supt. Caton, President Peacock of the Fonda, Johnstown and Gloversville Railway who had come down on a special train from Gloversville with the intention of transferring passengers and baggage where the railroad bridge was swept away. No connection has been made with the east with the Central railroad. There were no passengers or baggage on the east train and there is not likely to be any train on the F. J. & G. railway inside of three or four days, and those who wish to get back and forth between Gloversville and Fonda must employ conveyances. Up to nine o'clock four bodies were recovered from the debris. No one seems to know how many are drowned.

LATER—It is now stated on trustworthy authority that no lives were lost in last night's flood at Johnstown.

NOTABLES GATHER.

Quebec, July 10.—Sir A. P. Caron, Hon. John Costigan, Joseph Hickson and Mr. Anderson left yesterday in Hickson's private car for Riviere Du Loup, to meet Sir John Macdonald.

CHAPLEAU TALKS.

Montreal, July 10.—Hon. Mr. Chapleau is in town and in connection with the rumor that he was making a firm stand for the portfolio of railways and canals, said, "his friends were insisting on his receiving it, and he felt that it properly belonged to the province of Quebec. As yet it was held in abeyance, and though he had claims upon it he denied that he was disposed to make any trouble if he did not receive it. He said his relations with his colleagues were most cordial."

STANLEY COMING THIS WAY.

Lieutenant Governor Angers, by invitation of the Governor-General, goes to Cascapedia on Friday for a week's fishing. The Governor-General will not return from Cascapedia for a couple of weeks yet. He is booked for a trip to British Columbia, leaving here on the 14th of September.

EASTERN FIGHTING.

Cairo, July 10.—General Grenfell, who has arrived at Assouan, reports that Sheiks have expressed thorough loyalty to the Egyptians. The Egyptians have occupied Zimmon, in which vicinity dervishes are very aggressive. The Shaggeihs, who are friendly, killed thirty dervishes in an engagement at Serra, and eleven dervishes, foragers, were killed by Egyptian pickets.

LOSS BY FLOODS.

Amsterdam, N. Y., July 10—Floods last night did severe damage. Trees were uprooted, crops destroyed and several dwellings washed away. The New York Central Railway track was washed out for a distance of one thousand feet. Loss to the road is placed at $25,000, but no lives are reported lost. Total loss will be $100,000.

IN A BAD BOX.

Chicago, July 10—Judge Tuley this morning, in a lengthy decision, denied the application of John F. Beggs for a writ of *habeas corpus*.

LAWYER DEAD.

New York, July 10—Samuel L. M. Barlow, a well-known lawyer of Madison square, died at 3 o'clock this morning at his summer residence, Glen Cove, L. I., of apoplexy.

SPORTING NOTES.

Baseball—Horse Races—Foot Races—Sports in General.

The next game of baseball for the league championship pennant will be played by the Mayflowers and Maple Leafs.

HORSE TEAM RACES.

A forfeit of $200 was placed in the hands of Conductor Black this morning to be deposited with Mayor Bate, of Nanaimo. The amount will be covered by the Vancouver team if they are anxious to prove that they are entitled to the championship of British Columbia. On Saturday next a representative from the Victoria horse team will visit Nanaimo to make arrangements for the race with the Vancouver team. The offer made by the home team is to run three races, a dry test, wet test, and hub-and-hub race, at Nanaimo for $1000 aside.

McINTIRE AND WATSON.

Peter McIntyre, the San Francisco long distance runner, will arrive on the next steamer and will go into training at the Victoria Driving Park for his race with Tom Watson.

TRIGGER AND SIGHT.

At a meeting of the Victoria Rifle Association held in Mr. Beckwith's office last evening, the range committee reported that Mr. Heasy had agreed to rent the Clover Point range to the new association. The first practice will accordingly take place on Saturday next. It was reported at the meeting that Messrs. Pennock & Clayton had offered a silver cup to be competed for at the first meeting. A vote of thanks to the donors was passed. The new association starts out with a good membership, including many good shots, and it is hoped it will receive every encouragement from the public, who can do a great deal to help the cause along by joining the association and offering prizes (even if they are small) to be competed for. The entrance fee of the association is only $2.50 and annual subscription $1.

A committee reported to the meeting that an excellent range could be secured on Mr. Pestt's property, Colwood plains, which was recommended as a neutral ground for annual meetings of the B. C. riflemen. The place referred to is a beautiful spot, a perfect natural range, which can be put in order for shooting at very little expense.

HORSE TEAM PRACTICING.

The Westminster horse team was out Monday night for practice. It has been proposed to train up and get into good condition to attend the celebration at Walla Walla, which comes off some time in September. All the boys are in favor of the scheme and there is ample time to train. The work of the team at present is satisfactory and with a little more practice together they will be quite formidable.

THE REDOUBTABLE BILLY.

After holding the championship of British Columbia since last September the Vancouvers were beaten four straight games within the hour by the Victorias. Charlie Steuart must have hoodooed them. Two of Victorias games were scored by Charlie Cullin, a younger brother of the redoubtable Billy Cullin, who seems to have kept goal on this match in brilliant style. Among the old Winnipeg players were J. Smith, H. Quigley, D. Smith, C. C. Steuart, on the Vancouver team, and W. Cullin, C. Cullin and Clark of the Victorias.

BASEBALL CHALLENGE.

The Terminal Baseball club of Vancouver has issued a challenge to the Nanaimo nine, which in all probability will be accepted. We should be very glad to see a friendly game between these teams, and particularly to see Nanaimo win. The Nanaimo nine have picked up wonderfully in their playing lately, and before long will be able to give some of the Victoria boys a hard rub. The first match will probably be played in Vancouver and the return match will, in that case, be played in Nanaimo.—*Courier*.

AQUATIC.

Guy Nickalls, for two years amateur champion of England and holder of the diamond sculls, is Mr. W. A. Du Pre Gosman's brother-in-law. On the 5th inst. he defeated the American amateur champion, Postis, on the Thames. Nickalls is a son of T. Nickalls, of Patterson Court, Surrey, master of the Surrey staghounds.

HENRY E. SEARLE.

The parents of H. E. Searle are English, and he first saw the light by the side of the Clarence river in July, 1866, so that he is not yet 23 years of age. He stands 5 feet 10½ inches high, and rowed last year in his various races at 160 pounds. In the colder climate of England, and with added bone, he is expected to scale 168 pounds, fit and well, when he meets O'Connor in September. At present he weighs 135 pounds. He is possessed of a splendid physique, and his breadth of shoulder would attract attention in a crowd, even were he unknown. There is a strange feature about him. His hands and forearms are as hairy as a monkey's, and yet when he peels off his shirt to row, his chest and back are as white and hairless as a woman's. He is very fair, his hair being straw-colored and his slight moustache almost white.

TO THE TIMES ONLY.

Condition of the Crops in Ontario—Mining Machinery Burned.

The "True" Story of Morgan's Death at Last—The Jesuit Question.

[Special to The Times.]

Toronto, July 10.—Crop reports just received from all parts of Ontario and a few points of western Quebec, show that fall wheat will be more than an average crop; spring barley and oats an average one; peas slightly below average; roots, average; fruit almost a failure.

THE TRUE STORY AT LAST.

Toronto, July 10.—It is said that the true story of Wm. Morgan of Fort Niagara, who is said to have been made away with half a century ago for divulging Masonic secrets, has been found here in an old manuscript which gives all the details down to his death.

MANSLAUGHTER.

The coroner's jury to-day brought in a verdict of manslaughter against Hugh McKay, in the case of Jas. Smith, builder, killed last evening.

MINING MACHINERY BURNED.

Port Arthur, July 10.—The building and valuable machinery at the Huronian gold mine, southwest of Savanne, have been destroyed by a bush fire. The machinery was very valuable.

LACROSSE.

MOULDERS STRIKE.

Galt, Ont., July 10.—The moulders here are on strike for two dollars a day.

FROM OTTAWA.

The Citizens' Committee Desire to Interview Lord Stanley on the Jesuit Bill.

[Special to The Times.]

Ottawa, July 10.—The Citizens' Commission of Toronto wired His Excellency the Governor-General yesterday, asking for an interview regarding the disallowance of the Jesuits' Estate bill. The dispatch was sent to Cascapedia, where His Excellency is now holiday making. To-day the Department of Justice received a reply from him, stating that if the citizens would forward particulars of what they desire, he would take the matter into consideration.

A. W. Wright, of Toronto, to-day interviewed Sir John Thompson with a view to arranging for a date for a conference between the Minister of Justice and the Executive Committee of the Knights of Labor, respecting legislation to be introduced next session of Parliament affecting the interests of labor.

THE ROYAL YOUTH.

The Queen and the Prince of Wales Displeased.

London, July 9—In the House of Commons this evening, Mr. William Henry Smith, first lord of the treasury, moved for the appointment of a committee on royal grants, proposing that the committee consist of twenty-three members. Dillwyn, Liberal, proposed to make the membership twenty-five, by adding the names of two radical members, thus wiping out the majority of the supporters of the government. Smith contended that the government should have a majority on the committee, and that in this claim they were supported by all precedents. Gladstone supported Smith in this contention, and Mr. Bradlaugh spoke in favor of the amendment. It was finally rejected by 300 to 295.

The Queen and Prince of Wales are very much chagrined at the treatment accorded them in the Commons in referring the whole question of dowries for the young princes and princesses to a committee on royal grants. The government, having been forced by the threat of a determined Liberal opposition to accept the royal grants committee, now finds itself antagonized by the leading Tories, who object to the whole committee business. Under threat of revolt they have already extorted from William Henry Smith a promise that the cases of the children in direct line of succession to the throne shall not be included within the scope of the committee's enquiry.

THE CHISHOLM DIVORCE.

The Ottawa Journal on the Laxity of Marriage Laws in the States.

Ottawa, July 8.—The *Evening Journal* commenting upon the marriage of Hon. Mr. Foster and Mrs. Chisholm says: "Again the interesting question is raised as to the exact relation of the Canadian and United States divorce laws. One of the strongest reasons why Canadians are opposed to annexation is that the divorce laws of the United States are so lax, but if an American divorce annulling a Canadian marriage will hold good in Canada, of what use are our wise Canadian marriage and divorce laws. If a Canadian who cannot secure a divorce in Canada can get one by taking a trip to Chicago, marry again and live in Canada with the new wife or husband, of what value are our elaborate attempts to restrict the divorce. The high standing of Hon. Mr. Foster and Mrs. Chisholm should not blind us to the fact that their marriage is a severe blow to the observance of the Canadian law. Indeed, the very eminence of the contracting parties constitutes the danger of the example. We are under the impression that our courts have already decided that an American tribunal cannot annul a Canadian marriage, but if this is not so, and if the Canadian laws are not so framed as to make such a marriage illegal, it seems necessary they should be amended in that direction if we in this country are to have any defence against one of the greatest social evils in the United States, namely, the laxity of divorce."

European News.

DEATH OF MR. BARNARD.

A Respected Pioneer Passes Peacefully Away—End of an Active Life.

The end of a useful life came to an end this morning when Frank J. Barnard, a pioneer of British Columbia, died at his residence, Daval Cottage, Belcher street, to-day. For several years an invalid, he had been wasting gradually, and of late growing weaker from day to day, so that the end did not come unexpectedly.

Mr. Barnard was born in the ancient city of Quebec, his father, Isaac Barnard, being descended from a U. E. Loyalist family who originally came from England and settled in Massachusetts. Coming to the province in 1820, he commenced in the following year that active and useful career which has made him so valuable to the province of his adoption. In that year, 1860, he built the first Fraser river trail, and in 1861 founded Barnard's Express. A man of nerve and strong constitution, he made several trips on foot between New Westminster and Barkerville in the year 1861-62 carrying mails on his back. In 1863, he established a stage line, operating the express business in connection therewith and carrying the mails and gold dust from the mines. The British Columbia Express Company was incorporated in 1868 and succeeded Barnard's Express Company.

Mr. Barnard was one of the leaders in the Confederation movement on the mainland and a member of the Yale convention which met in 1864. He was elected a member of the legislative assembly for Yale district in 1866 and after the union of the two colonies, British Columbia and Vancouver Island, was re-elected in 1868 and sat till 1871, when he resigned his seat; 1879 saw him elected to represent Yale district in the House of Commons on the appointment of the sitting member as Indian Commissioner. He was re-elected in 1882 and sat till 1886, when, owing to ill health, he did not seek re-election. He was succeeded by his son-in-law, Mr. J. A. Mara.

In 1874 he was awarded the contract for the construction of part of the Canadian Pacific telegraph line, viz., from Edmonton to Cache Creek, but the work was never completed owing to a change in the route. Mr. Mara, after several years, was partly compensated for his losses in connection with this work by the present government.

In 1890 he was first attacked with paralysis, since which time he has not been actively engaged in any business. Previous to that time he was an active, hard-working, enterprising man, and one who has left the impress of his work on the province. He leaves three children, Mr. Frank S. Barnard, M. P., Mrs. Mara and Mr. G. H. Barnard.

The funeral will take place from the late residence on Friday morning.

CITY SCHOOL BOARD.

The First Meeting Since Election—Business Transacted.

The first regular meeting of the new board of school trustees was held last evening; present, Messrs. Hayward, Heisterman, Erskine, Mallandaine, Dr. Morrison and Col. Wolfenden.

Col. Wolfenden announced that the following trustees had been elected since the last regular meeting: Mr. Mallandaine, for James Bay ward; Mr. Erskine, for Johnson street ward, and Mr. Hayward, for Yates street ward.

Mr. Heisterman moved, seconded by Mr. Erskine, that Col. Wolfenden be re-elected secretary. Carried.

On motion of Dr. Morrison and Mr. Erskine, Mr. Charles Hayward was unanimously re-elected chairman of the board for the ensuing year.

On motion the rules of order adopted by the board in July, 1888, were adopted by the new board.

The secretary reported that the young ladies appointed as monitors had been assigned to the following positions: Miss Forsyth, to Spring Ridge school; Miss Lorimer, to James Bay school; Miss Kermode, to Rock Bay school, and Miss Withrow, to Hillside school.

COMMUNICATIONS.

From Miss Gowen, tendering her resignation as teacher of the Hillside ward school. Received and accepted.

Mr. Erskine moved, seconded by Mr. Heisterman, that in accepting the resignation of Miss Gowen, the board express its high appreciation of the valuable service rendered by Miss Gowen during the time in which she has been connected with the teaching staff of Victoria.

From D. E. Kerr, tendering his resignation as teacher of the second division of the boys' school.

On motion of Mr. Heisterman and Dr. Morrison, the resignation was accepted with regret, and the secretary instructed to tender to Mr. Kerr their high appreciation of his past services.

On motion it was decided to hold a special meeting on Tuesday evening next, for the purpose of receiving applications for the two vacant positions.

FINANCE.

On motion of Mr. Erskine and Dr. Morrison, the following were named as a finance committee for the year: Mr. Heisterman, Col. Wolfenden and Mr. Hayward.

An account of $12 50, presented by the *Standard* Newspaper Co., was read and referred to the finance committee for payment, if correct.

THE SECRETARY'S REPORT.

Col. Wolfenden presented the report of the various city schools, with the result of the midsummer examinations. It was shown that the standard of excellence was never before so high in the city schools, as shown by the recent examinations.

On motion, this summary of the term work was received and ordered to be entered in full upon the minutes.

ATTENDANCE FOR JUNE.

The number of pupils attending during the month of June was reported to be 1302, the average daily attendance 1,025.25, or an average per teacher of 48.82.

Mr. Heisterman stated that the new filter was now here, and might be seen by any member of the board. It would, he thought, give every satisfaction.

On motion the secretary was instructed to have the names of those upon the roll of honor placed upon the board in the High School.

In reply to Mr. Erskine, the chairman stated that good progress was being made in regard to the opening of a new street at the foot of the school reserve.

The secretary stated that alterations costing about $100 would be made to the rooms of the central school.

Mr. Heisterman moved, seconded by Dr. Morrison, that the education department be requested to cause teachers of every department of the city schools to teach at least once a week the club swinging exercises, so ably shown by Miss Todd's pupils. Carried.

The chairman thought it would be well for the generous public to offer prizes for the best club swinging. It would be a good way to encourage club swinging in the schools.

The board adjourned until Tuesday evening next at the usual hour.

SHOOTING SCRAPES.

Dr. McDow is the hero of the hour. This man, who shot another down in cold blood, is being feted in Charleston; ladies bow to him, and clergymen follow humbly in his train. Captain Dawson, the murdered man, was the editor of the Charleston News and Courier, and a man of influence in his state. He was an Englishman by birth, and during the war of the rebellion had fought bravely for the Southern cause, rising from the ranks to a captaincy. At the close of the war he established himself in Charleston as a journalist, and besides affecting valuable political services to the state in a journalistic capacity, he contributed to the knocking in the head of the duello by declining a challenge. But though he had lifted his adopted state to the proud rank of progress, he had made many secret enemies. He was too broad a democrat to be both loved and respected in such a state as South Carolina, and the consequence is that his slayer is now the lion of Charleston's best society. There is one person, however, who has had spunk enough to denounce McDow. Immediately after the murder he spoke against the killing from the pulpit, and now he proposes to inveigh against the verdict of acquittal from the same prominent locality. McDow has threatened to wreak vengeance on the minister, but the reverend gentleman, who was a member of Marmaduke's cavaliers in Missouri during the war, and who has the reputation of being a very resolute individual, is reported to have said that he would "like to have him try it." It is pretty safe to say that McDow will not live long unless he conducts himself with admirable decorum. The law-abiding element of the South are not one whit less prone to use the pistol when matters come to an extremity, than those of the McDow element, and now finding that the law is impotent, if not seeking a quarrel with McDow, will shoot him on very slight provocation. If McDow cares to live out his natural term of years he had better leave the state. The result of the verdict, however, has a profound importance than the mere death of editor Dawson. It conveys the idea of a lax morality singularly at variance with the supposed effects of education and religious teaching. It demonstrates the impotency of the law without moral backing, and it further demonstrates that men, however strong their moral compunctions, must be prepared to defend themselves by methods opposed to the simplest principles of human justice. There is this consoling feature, though, about the use of the pistol. When it is understood that a personal altercation may result in the death of one or both, the common sense of danger makes men more decorous to each other, and slower to push differences to extremes. Nothing contributes more to a square poker game than the knowledge that the players are armed and will shoot if need be. The lie is not vented freely where powder burning is liable to result. The most decorous men met in mining camps are armed men. The quarrel is long brewing between men who are armed and where the mutual knowledge exists that both "will shoot." The pistol in society, therefore, has its compensating features. It is a condition, however, which should not exist, and it would be a good idea, we should suppose in view of the propensity of society to condone "shooting scrapes," for southern prohibitionists to turn their attention from whisky to derringers and inculcate the idea of the wickedness of their indiscriminate use.

THE IRISH REPUBLIC.

Prominent Irish Americans have held a meeting in Chicago, and it was "unanimously decided" that the only way to circumvent "perfidious Albion" in the matter of the Irish question, was to start an Irish colony and build up a nation out of the remnants of Ireland's evicted sons. The plan is feasible enough, provided the territory can be obtained. We see no reason why a million of Irishmen transplanted to some favorable spot should not increase and multiply, and acquire the world's goods the same as other people. We would like to see a million of Irish settled beneath their own vine and fig trees, and above all would we like to note their success at self-government. If we may believe Irish history, there was never such a thing as liberal government in Ireland. Even anterior to the conquest of Ireland by the Normans there does not appear to have been, so far as the real Irish were concerned, any other kind of government than that which was lodged in the hands of petty tyrants, who almost without exception died with their boots on. If ever a country has been unfortunate in respect to government it is Ireland, and what is more remarkable, still, is that with all their vicissitudes and with all their contact with the world's people, Irish blood is practically as pure as when Brian Boroihme cleaned out the Danes at Clontarf. But as to this proposed Irish republic, the plan submitted is to purchase, say, anywhere from two to three millions of acres of land in Canada, Mexico or South America, and invite settlement by selling the land in small blocks at low figures, securing the land by mortgage, the interest low and collected in small annual instalments; the money so collected to be utilized to build and equip a navy, organize an army and develop the resources of the country. This plan sounds so pretty that we dislike to interpose a demurrer. The fact is patent, however, that landlordism would still exist. We are not to suppose for an instant that the wealthy Irishmen at the head of this project are going to invest largely in an enterprise which does not promise fair returns. "Rent, rent, the bloody rent collector," would still make his annual round. If we may be allowed to make a suggestion, we should say, that the syndicate which purchases the territory for this Irish republic should constitute themselves a government in which the land should be vested and rented on the Henry George principle, subject to such tax modifications as should support government and allow fair interest on money invested. There are some other preliminaries which would have to be settled, but as the republic in question is still a very nebulous affair we need not particularize. Here, then, we should have an unexampled opportunity not alone to start a nation of Irishmen, but to test the efficacy of "single tax." But admitting that the settlement of a given territory is possible under such auspices, where is the territory to come from? We are not to suppose that England would tolerate a colony of this description in any of her possessions whose object, tacit or avowed, was the dissetablishment of "Rule Britannia." Mexico would scarcely tolerate such an aggressive people in her midst, and we may well suppose that none of the South American governments would care to offer a refuge to a people, who, just as like as not, would take umbrage at something and sweep over the country like the Irish brigade at Fontenoy. Nothing is more certain than that an exclusively Irish colony, exercising a policy of its own, is out of the question in the Northern and Southern Hemispheres. But the idea of an Irish colony is preposterous anyhow, and the fact that Irishmen should entertain such a proposition seriously raises the question as to whether or no Irish prejudice against England has not become so strong as to bias their judgment past redemption. We shall not sit in judgment on English rule in Ireland, but this much is certain, Irishmen outside of Ireland have equal chances with everybody else. We cannot believe that this Irish-American colony business is intended to be serious. The experiences of all co-operative societies has been disastrous. The Irish Americans, who are responsible for this scheme, are cranks or else they had dined too well. The chances are that when the parties to the scheme have sobered up they will recall the thing as a fantastic dream.

DISALLOWANCE.

The disallowance petition, forwarded to the Imperial government through the Governor-General, has been returned, with the reply that the matter was one for the Canadian government to deal with. This is as might have been expected, and had the Imperial government done otherwise we should have had a precedent established which the Protestants some day might find convenient to repudiate. England has had some little experience in intermeddling with colonial affairs, and as she has almost always got herself in hot water over it, the chances of her undertaking to bolster up the anti-Jesuitic sentiment in Ontario was very remote. The Protestants, in fact, should have known this from the start, and have saved themselves from going down to posterity as willing to curtail their political rights to gratify religious prejudices.

CULTIVATION OF PEACH ORCHARDS.

We are informed, on no less authority than A. McD. Allan, President of the Fruit Growers' Association, Ontario, that peaches will grow where tomatoes can be raised, and as we do know that the latter may be grown profitably in the valleys of this province, why not the peach cultivation be attempted. But while we would encourage fruit raising, the principle which we wish to inculcate here is the cultivation of orchards, and with this end in view we offer the following from Orchard and Garden:

"It has been our experience that the best cultivated orchards pay the best. The trees thrive admirably under the severest cultivation. It might seem that the mutilation of the roots of a tree while in a growing state and so near the surface as are those of tree roots, would severely or kill it outright. But it is not so. The scarifying and pulverizing of no soil more than compensates for the injury to the roots. A leading and successful peach grower in Michigan says: 'It puts me out of patience to hear anyone whose opinion has any weight deprecate cultivation. I have an orchard which for eighteen years has been plowed, annually, to the depth of five or six inches, sometimes in April or May, then in about two weeks, when the weeds have sprung up, a heavy harrow has been passed over to kill weeds. After this, when the weeds are a rouger and larger, a two-horse cultivator set to run four inches in depth has been passed over from three to five times during the season. This is each season's cultivation, and I suppose, according to many writers' views, that my trees ought to have been dead long ago; and yet I believe there are more peaches of the best quality grown on the same number of trees than in any other orchard in the state. Trees eighteen years old have made a growth of from one to three feet in the season while bearing a heavy crop."

CITY AND PROVINCE.

—A perfect specific, Dr. Sage's catarrh remedy.

—Use the safe, pleasant and effectual worm killer, Mother Graves' Worm Exterminator; nothing equals it. Procure a bottle and take it home.

—Have you tried Holloway's Corn Cure? It has no equal for removing those troublesome excrescenses, as many have testified who have tried it.

—Hacking coughs lacerate the lungs and beget consumption; consumption fills our cemeteries. If nipped in the bud with Dr. Thomas' Eclectric Oil, the destructive malady is deprived of its power. Pain is also subdued by this benign healing agent—burns, sores, frost-bites, burns and other troubles.

—Mr. J. B Allen, upholsterer, Toronto, sends us the following: "For six or seven years my wife suffered with dyspepsia, costiveness, inward piles and kidney complaint. We tried two physicians and any number of medicines without getting any relief, until we got a bottle of Northrop & Lyman's Vegetable Discovery. This was the first relief she got, and before one bottle was used the benefit she derived from it was beyond our expectation."

—The true philosophy of Medication is not to dose for symptoms, but to root out disease. Northrop & Lyman's Vegetable Discovery and Dyspeptic cure, the great blood purifier, has proved itself equal to this task. It is a most searching without being a violent remedy for constipation, biliousness and indigestion. It is as well adapted to the needs and physical temperaments of delicate females as to the more robust sex, and is a fine preventive of disease as well as remedy for it.

—James Cullen, Pool's Island, N. F., writes: "I have been watching the progress of Dr. Thomas Eclectric Oil since its introduction to this place, and with much pleasure state that my anticipations of its success have been fully realized, it having cured me of bronchitis and soreness of nose; while not a few of my rheumatic neighbors' (one old lady in particular) pronounce it to be the best article of its kind that has ever been brought before the public. Your medicine does not require any longer a sponsor, but if you wish me to act as such, I shall be only too happy to have my name connected with your prosperous child."

The Power that Moves the World

FIRST ANNUAL TOUR
OF
D. McLENNAN
OF
SAN FRANCISCO, CAL.

THIS WONDERFUL MASTER OF THE Healing Art has arrived in the city, where he intends to remain for a short time, to cure the sick and afflicted of this vicinity. He comes to us in ten with testimonials from the leading citizens of California and the Sound. In San Francisco he has practiced for the past sixteen years, and the northern coast country of some of his cures seem nothing short of miraculous. He uses no medicine and performs his cures mostly by the WONDERFUL POWER OF MAGNETISM, the gift of but few men on earth. This is the only method of treatment that restores the life-giving principle, magnetism, to the system, thereby increasing the vital powers and energies, fills the nervous system, equalizes the blood courses and bounding through the veins, with drawing and allaying in a few minutes all pains and aches from whatever cause.

The diseases which yield most readily to the curative agency of this method, as practiced by McLennan, are: Asthma, Bronchitis, Consumption, Catarrh, Deafness, Gravel, Paralysis, Loss of Voice, Wakefulness, Diarrhœa, Dropsy, Fits, Piles, Scrofula, Swellings, Worm, Spinal Complaints, Cold Feet and Hands, Biliousness, Contracted Limbs, Diseased Kidneys, Epilepsy, Nervous Depressions, St. Vitus's Dance, Weak and Failing Limbs, Mental Depressions, Diseases of the Brain, Dyspepsia, Diabetes, Stricture Impotency, Tape Worm, Carbuncles, Costiveness, Palpitation of the Heart, Liver Complaint, seminal Weakness, Falling of the Womb, Leucorrh, Heart Disease, Fever, Soreness, Rheumatism, Swollen Joints, Weak Lungs, Gout, Goitre, Coughs, Diseases of the Eyes, Neuralgia, Tumors, Ulcers, Cancers, White Swellings, Leucorrhœa, Ague and Fever, Milk Leg, etc.

Annual Report Submitted to Shareholders in London Yesterday.

Following is a portion of the report of the governor and board of directors, read before a meeting of shareholders in London, Eng., yesterday, the remainder of the report dealing with matters of detail not of general interest: The net profit of the company for the year ending 31st May last amounts to £68,022 3s. 4d., to which must be added £43,822 6s. 9d., carried forward from last year, making a total undivided balance of £111,844 10s. 7d., out of which the governor and committee recommend a dividend of 14s. per share, amounting to £70,000. The amount to be carried forward after the payment of the proposed dividend is £47,844 10s. 7d.

Prior to the death of Mr. Bryd ges, the Land Commissioner of the Company, which occurred in February last, the Board had taken steps with the view to the reduction of the controllable expenses of the Land Department. This Department is now under the supervision of Mr. J. H. Lawson, one of the Company's officers, and the reductions referred to are being carried out, every endeavor being made to render the service more efficient.

The Sales of Farm Lands and Town Lots by the Company during the past year have been:

Farm Lands—26,189 acres		$144,950
Town Lots—		
Winnipeg	10	$12,000
Minor Towns	133	31,024
		43,024
		$187,974

as compared with $66,060 for the year ending 30th March, 1888, and $54,565 in the previous year.

The total sales effected by the Company to the end of March last, exclusive of cancelled sales, are as follows:

Farm Lands,		
195,150 acres		$1,156,850
Town Lots, (equal to about 1-6th of an acre each)		
Winnipeg	1,080	845,156
Rat Portage	279	37,553
West Lynne	242	29,347
Portage la Prairie	194	32,391
Edmonton	494	29,272
Prince Albert	348	13,448
Fort Qu'Appelle	151	12,665
Rosemount	86	3,272
Colvile	23	2,030
Elphinstone	11	220
Newdale	92	135
Millwood	10	255
Nipigon	8	405
		$2,159,969

on account of which instalments have been received amounting to $1,747,756, leaving unpaid $406,230.

Namely:—in arrear	$160,660
not yet due	245,570
	$406,230

Payments for Farm Lands and Town Lots are generally extended over eight and five years respectively, and interest is charged on the balances remaining unpaid.

The total amount of land in Manitoba and the Northwest Territory surveyed by the Dominion Government to the close of 1888, amounted to nearly 72,000,000 acres, the proportion of which falling to the Company under the Deed of Surrender made in 1869, is about 3,600,000 acres. Irrespective of the Company's portion, the Government have granted nearly 40,000,000 acres to the Canadian Pacific and other railway companies for the extension of lines by means of which the vast resources of the fertile belt are being developed; and they have further disposed of 12,719,000 acres as free homestead grants, pre-emptions, and sales to settlers.

A large immigration from Europe and the older Provinces of the Dominion to Manitoba and the Northwest Territory—a favorable season for seeding operations—and the prospect of opening up of new districts, by the further extension of railways—having had the effect of increasing the demand for farm lands during the past few months, the sales in April and May (since the accounts were closed) having been 14,314 acres for $80,118.

With the improvement in immigration and consequent demand for farms by actual settlers, it may be reasonably expected that the sales of the company's lands will greatly increase, and that it will before long be the pleasing duty of your board to resume the payment from time to time of substantial sums as return of capital.

TYRANNY!! TYRANNY!!

TO THE EDITOR OF THE TIMES:

DEAR SIR.—Where are the Hon. A. E. B. Davie, the Hon. F. G. Vernon and the Hon. J. H. Turner? Have they given their sanction to Mr. Pope to proceed to cancel any of my certificates? If so, I would like to know on what grounds, and so would the people. I shall not believe they have done so until I see it; yet Mr. Pope cannot proceed until he gets the sanction of the Lieut.-Governor-in-Council, and he has already (5th July) threatened to cancel one of my certificates. I have not the *slightest fear* of the result; but I shall be truly surprised if such sanction has been given by the honorable gentlemen. Do they know that a letter of *their* president of the council published in the weekly *British Columbian* of June 26, contains false statements upon which arguments are founded and conclusions drawn? Do they know that I have exposed the same? Do they know that I have exposed the unreliability of the returns for (some at least) graded schools in the schools report? Have they examined carefully the grounds on which sanction was given (if given) to attempt the ruin of my character? If they have given their sanction to such an *outrageous* proceeding, alas! for the country, and alas! for the people who will help such persons in power.

Yours truly,
J. N. MUIR.

CHANCES OF LIFE.

How They Vary as People Grow Older in Years.

These life insurance tables that show the expectation, the average, the probability of life are very curious and interesting, writes Bill Arp in the Atlanta *Constitution*. In a million births the males outnumber the females 23,000, but the girls don't die so fast, and by the time they reach 50 years the females begin to outnumber the men and outlive them. Nine thousand more women live to see 70 years than men, taking a million as the basis. Two thousand more women than men live to see 90. At 100 years there are 79 men to 144 women. The males start off most numerous and this is right, for it gives every girl a fair chance for a lover and a husband—and it certainly was intended by a kind providence that she should have one. She is entitled to one, and if I had my way I would make every old bachelor marry or support one. If he wouldn't marry according to nature, I would make him work for one. In youth and middle age the males outnumber the females, because it takes a good number to defend the country and do the fighting. But the old women outlive the old men because they are needed to nurse and raise the grandchildren. They have no bad habits that shorten life. They do not drink, nor chew tobacco, nor smoke, nor expose themselves, or eat in a hurry. They take life calm and serene. One hundred and twenty-five thousand children are born every day. What a squalling and rejoicing it one could hear it all at once. Just think of it—45,000,000 of brand new human beings in a year. But they don't stay long, not many of them. One-fourth of them die before they are six years old. While 125,000 are born every day there are 100,000 funerals going on at the same time. What weeping and wailing, what grief and sorrow it we could hear and see it all. Verily the increase of the human family is mixed with great tribulations. Births and deaths, births and deaths, with the births only a little ahead, and sometimes, when war and pestilence and famine come, the death rate is ahead.

HON. JOHN L.

Why Should Not Sullivan Imitate John Morrissey in Politics.

Professor John L. Sullivan is again to the fore. For the past week there has been a sort of a political interregnum in the States, Sullivan and Kilrain filling up the interval. We were going to say that it is simply astonishing the amount of interest which the public has taken in this noted prize fight, but coming on the heels as it has of Dr. McDow's acquittal, it is after all but a logical sequel and must be accepted as a matter of course. John, we expect, will run for Congress. Morrissey got there; why should not John L. The latter has redeemed himself from the obloquy of the Mitchell fiasco, and he has at last reached the sublime perfection of pugilistic endeavour which leaves him without a peer. Why should he not, after starring through the States, offer himself for Congress. There are Democrats enough in Boston to elect him. But whatever may be said of prize fighting as brutal sport, this much may be accorded to Sullivan, he fought this battle with Kilrain reluctantly. But this fight will not be without its advantages. It is probably the grand finale of bare handed prize fighting, and if this much has been gained moralists should congratulate themselves.

HON. FOSTER'S MARRIAGE.

Lawyers Trying to Prove that He Has Another Man's Wife.

Ottawa, July 6—The marriage of Hon. Mr. Foster to Mrs. Addie C. Chisholm, ex-president of the Dominion W. C. T. U., is the talk of the city to-day. A prominent divorce lawyer was seen on the subject, and said:—"This divorce in its bearing on the marriage has, of course, been thoroughly discussed by a number of Ottawa lawyers to-day. They are of the opinion the divorce is not worth the paper it is written on. There are several reasons for this. First, there is no pro of that Mr. Chisholm was ever served with the necessary papers; second, the divorce was granted for a trivial cause not recognized by the Canadian law; third, the parties were not subjects of the United States and one of them at least only went there temporarily to qualify for a divorce; and fourth, the Canadian law only recognizes divorces given by act of parliament. It is safe to say there is no value in the divorce. The divorced husband, however, is not considered likely to come into Canada to interfere with Mrs. Foster or subject him elf to arrest."

As this is a Home Company, organized by British Columbians for the two-fold purpose of giving cheap insurance and keeping the money in this Province, it commends itself to the support of every liberal desiring the prosperity of this country.

In Ontario, the system of insurance, which is similar to that adopted by this Company, has been in highly successful operation for the past fifty years and it has proved to be a great advantage to every insurer in it, by reducing the cost of insurance, and it is estimated that now three-fourths of the insurance effected in Ontario is carried by mutual companies.

Death of Charles Davis.

At 10 o'clock this morning Charles Davis, janitor of the Victoria Theatre, died at his residence Douglas street. The deceased was subject to epileptic fits for some years and was seriously ill for the past four days. He fell off a building at Nanaimo, receiving injuries from which he never recovered. The deceased was 38 years of age and was a native of Baltimore. He served a short term in the American army before arriving in this city. He was a painter by trade. The deceased was a member of the old volunteer fire department, and at the time of his death he was a member of St. Joseph's Social and Literary Society.

Arrived.

Marine.

The China-Japan steamer, Port Fairy, passed up to Vancouver at 12 last night.

The steamer Kuiuk, which went aground on the Sand Heads of the Fraser, entered Esquimalt at 8 a. m., where she will dry dock for repairs.

A. O. U. W.

The Grand Lodge of Ancient Order of United Workmen was convened in Portland this year as usual. The lodge held its first session to-day. Delegates from the Northwest Pacific lodges are present in full force. The lodge in this city is represented by J. A. Halliday, F. G. Richards, Jr., and J. T. McIlmoyl.

New Cannery.

Mr. David Fee returned from Naas River yesterday where he has been erecting a new cannery. The cannery is 104 x 70 feet, with an addition 30 x 30, and a canning capacity of about 400 cases per day. The name of the company owning it is the Cascade Packing Company. They opened out on the 4th with good prospects, the fish running well and the weather fine.

Very Dangerous.

Those engaged in marine pursuits are loud in their denunciation of the small boat landing at the foot of Yates street. It is positively unsafe from its narrowness, and extremely steep to ascend at all times. Furthermore, it should have a railing for safety. There is much complaint about it and it behooves the proper authorities to remedy the defect at once.

A Long Pastorate.

The Ven. Archdeacon Woods, before commencing his discourse on Sunday evening, reminded his hearers that next Sunday would see the close of his long pastorate of Trinity Church, Westminster, and he desired as many as possible of his hearers to be present at the morning service. The Ven. Archdeacon has labored twenty-one years in his present incumbency and takes charge of the Sapperton Parish in future.

Funerals.

The remains of the late John Milleto, which were originally intended to have been interred in Ross Bay Cemetery, were sent to Wellington for interment instead by this morning's train.

The funeral of Annie Charlotte, infant daughter of John J. Russell, of Strawberry Vale farm, who died on Monday last, took place this afternoon.

The funeral of little George Alexander Wylie took place this afternoon from No. 1, Beadall street.

Exquisite Spars.

The bark Thos. S. Stowe is at present lying in Royal Roads ready to depart for Deptford, England. The vessel carries as cargo 250 spars for the use of the Imperial government. The spars are each 100 feet long and 2 feet square, and were cut by the Moodyville sawmill. They are pronounced exquisite specimens of pine timber, clear and straight as an arrow. They were loaded into the vessel by a pile driver and donkey engine. The vessel is lightly loaded, however, only drawing 14 feet, two feet from the water line.

Forrester's Re-Union.

Arrangements have been made for a grand re-union of Foresters in this city on August 3rd. The re-union will be held on the Caledonian Society's grounds, and an extensive programme of sports, including archery, has been arranged. There will be a dance in the evening and a grand time is anticipated. The brethren in Nanaimo will visit in a body and a procession of about 400 Foresters will take place. A magnificent programme has been prepared which will shortly appear.

For Hawaii.

The schooner C. H. Tupper, commanded by Capt. Kelly, sailed for the Sandwich Islands this afternoon. The vessel goes direct and will return here inside of three months. For cargo she has on board about 44 statute miles of cable, which is to be laid between two islands of the Hawaiian group. Also a complete outfit of swivels, sign boards, etc. Mr. Bartholemew, wife and family, and Mrs. Bartholemew's sister are passengers. Mr. Bartholemew goes down in the interest of the cable company.

Sad Drowning Accident.

A sad drowning accident occurred Sunday afternoon at Cacoe Pass. The tug Stella, having a scow in tow, ran upon a snag and was in danger of sinking. The captain before going ashore for assistance told Engineer Donovan to remain on board to look after the vessel. When the captain returned a short time afterward he could not find Donovan, although the Stella and the scow were afloat and in the same position as when last seen. A search was commenced and the body was found Monday and brought to New Westminster in the afternoon.

Death at the Hospital.

Donald McKenzie, aged 24 years, died at the Royal Hospital this morning. The deceased was a native of Sutherlandshire, Scotland, and arrived here about three weeks ago from his home in Scotland. He was employed on the Johnson street sewer for a few days and was taken ill with typhoid fever. His companion, another young Scotchman, was admitted into the hospital on Tuesday, suffering from the same disease. The deceased leaves a father and mother in Scotland. The funeral will take place to-morrow afternoon from the Royal Hospital.

Daughters of Rebekah.

At the regular meeting of Colfax Lodge, Daughters of Rebekah, held last evening, the following officers elect were duly installed by G. M. Meldrum and the officers of the Grand Lodge, I. O. O. F.:—N. G. Sr. Miss S. Neil, V. G. Sr. Miss A. Carne, Rec Sec. Miss A. Huxtable, Fin. Sec. Sr. Miss J. Carne, Treas. Mrs. J. Meldrum. Appointed officers:—R. S. N. G. Sr. Mrs Dale, L. S. N. G. Sr. Mrs. Taylor, R. S. V. G. Bro. Church, L. S. V. G. Sr. A. Gosnell, Warden Bro. M. McCaskill, Condr. Bro. Holland, O. G. Bro. W. H. Huxtable, I. G. Bro. J. Pope, Chaplain Sr. Mrs. Stratford.

After installation the officers and their friends sat down to a supper at Steitz's, where a pleasant time was enjoyed.

Railway Ferry.

The meeting to consider the railway ferry scheme will be held in the city hall to-morrow evening, opening at eight o'clock. In order to hear what the promoters have to say of it, and to learn how much they propose to increase the prosperity of the city by the scheme, everyone should make an effort to be present.

We believe a proposition will be submitted for the city to take stock to the amount of $375,000, and to give a bonus of the interest on a further sum of $500,000 at 4 per cent. for 20 years. The stock, it is quite probable, will only be partially called in. Thus far the company has received no government assistance, but in view of the grants to the E. & N. Railway, a less important enterprise, the legislature cannot refuse to subsidize a railway to connect with the systems of the mainland.

Full Court.

In the full court to-day, before their Lordships, the Hon. Sir M. B. Begbie, Chief Justice, and the Hon. Justices McCreight and Walkem, an appeal against a decision in the case of Beddard vs. Langley was heard. Mr. Taylor, of Messrs. Eberts & Taylor, appeared for the appellant; Mr. Walter Langley and Mr. M. W. T. Drake, Q. C., for Mr. Joy. Beddard, the respondent. The case was an appeal in a water suit brought by Mr. Beddard against Mr. Langley in June, 1888, and affected certain of Mr. Langley's water records, and was heard by Mr. Justice Crease, who gave judgment partly in favor of Mr. Beddard. This judgment was appealed against. After hearing the arguments of counsel on both sides, their Lordships allowed the appeal with costs against Beddard. Their Lordships declined to make a declaration as to what Beddard's water privileges were.

Schlechmayer & Sonhns Pianos.

We have just received a consignment of the above pianos direct from the factory. These are the best instruments made in Germany, and are without doubt the best German pianos ever imported into this country. M. W. Waitt & Co.

A Soldier's Funeral.

Adolphe Marceux, one of the men of C Battery, died at St. Joseph's Hospital yesterday after a short illness. The funeral will take place from St. Andrew's pro-cathedral. View street, to-morrow, the remains being drawn to the cemetery by his comrades on a six pounder gun carriage.

Victoria Lodge Officers.

The following officers were installed in Victoria Lodge No. 1, on Monday evening last by Grand Master Meldrum: A.G. Day, N.G.; A. McKeown, V.G.; F. Davey, R.S.; Alex. Phillips, treas.; John S. Fullerton, conductor; Wm. Lee, warden; C. Gleasman, L.S.N.G.; W. H. Huxtable, O.G.; Frith, I.G.

A Family Quarrel.

One of our well known citizens went home to lunch to-day, at noon, and made a few remarks to his wife about the meat being tainted and the butter being greasy. She said she could not help it this hot weather. One word led to another and peace was only restored when he promised to get a refrigerator from McLennan & McFeely, Yates streets.

C. P. N. Excursions.

Two excursions to the north are advertised by the C. P. N. Company, taking place on the 7th and 22nd of August. The boat which will carry the excursionists will be the Princess Louise, which on account of the room and convenience offered by her is one of the best calculated of boats for the purpose. The trip will be made through the inland waters of British Columbia, where the scenery far outrivals that of Alaska or any other part of the coast and which from a business standpoint will be valuable in giving business men a chance to investigate the resources of the great silent land to the north of us.

The Fatherland.

It is an old provero that "nothing succeeds like success," and it applies forcibly to this brightest of German comedians, Charles A. Gardner, in his new play, Fatherland, for successful it has been to an amazing extent. Beyond a doubt Charley Gardner's creation of that heroic, simple-hearted, honest and jolly Tyrolean guide, Herman Leopold, is a revelation. One moment ergating merry laughter, the next causing hearts to respond to his words of endearment and applause to his sweet singing. Fatherland was written by Sydney R. Ellis, his manager, and Charles himself, and by their work their friends positively believe they have written something that will live for years to come, and as the months and seasons roll by it will improve with age. The play is consistent, original, witty and absorbing, while the special features, such as the "Festag," "Spinstube" and Saengerfest scenes, contribute their share towards its genuine and positive success.

A Woman's Despair.

"Death would be preferable to this awful, dragging down sensation and aching back," despairingly complained a suffering mother. "And the worst of it is," she added, "there seems no cure for it." "You are mistaken," replied the sympathizing neighbor to whom the sufferer complained. "I suffered for years just as you do, and found no relief till my physician finally prescribed Dr. Pierce's Favorite Prescription, which cured me, and I have ever since been well, and the wealth of India would not induce me to be without the remedy, if a like affliction should return." "Favorite Prescription" is the only medicine for women, sold by druggists, *under a positive guarantee* from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years.

Dr. Pierce's Pleasant Purgative Pellets—gently laxative or actively cathartic according to dose.

The Salmon Season.

Mr. J. Englehardt, agent for the British American Packing Co., has received word from Mr. Gus Holmes, manager of the company's cannery on the Skeena, that the pack of canned salmon up to the 5th inst. was over 5000 cases from his cannery alone, which was the largest of any cannery in the province. Mr. Holmes expected a month's good fishing yet and was prepared to put up 70,000 cases.

The Johnson-Locke salmon circular of latest date says: The pack in the United States is running enormously behind expectations. The Sacramento river shows a shortage of about 25 per cent. as compared with last year. Rogue river is 50 per cent. behind, and up to July 1st the Columbia river was about 42,000 cases short, and since July 1st the shortage has been increasing. Toward the last of this month we will be in receipt of further advices from Alaska, and, if similar advices reach us in regard to the July packing as we have received in regard to the June packing, it is within bounds of strong probability that salmon will advance 81 a case.

Powder Magazines.

The stipendiary magistrate, Mr. Edwin Johnson, Q. C., was engaged nearly the whole of yesterday in trying certain cases under the "Explosive substances act, 1884." In the case of Mr. Wm. Gordon, of the Hamilton Powder Co., Mr. S. Perry Mills appeared for him and contended that the act should not be construed retrospectively; and also, 1st, that the magazine was in existence before the act; 2d, vested rights; 3d, that the primary object of the act related to public order and safety, although it could be contended that the act dealt with property and its rights; 4th, that the act was for the promotion of public safety, and those who contravene it are liable to criminal procedure and punishment, it belongs more to the subject of public wrongs than civil rights, and therefore was *ultra vires* the provincial legislature; that the act made the proprietor or lessee liable. Mr. Gordon was not the proprietor or lessee, but the agent of the Hamilton Powder Co.

[In the case against R. Ward & Co., Mr. Pooley, Q. C., appeared for Mr. Ward and contended that the magazine was a barge on the navigable waters of the province over which the local legislature had no control. Judgment in all the cases was reserved.

The Strike at Vancouver.

The difficulty between the carpenters and some of the contractors at Vancouver, according to the *News* of Tuesday morning, is as far as ever from adjustment. The Royal City Mills were still shut down and several contractors had stopped work. On Monday a deputation from the contractors interviewed the men with the proposal that work should be resumed on the old system until the 1st of October, at which date the nine hour system, as at present demanded by the men, should come into force, except in mills and factories, and that in these two hours should be knocked off on Saturday. The deputation urged this as a fair proposition, on the ground that contractors had buildings which would not be completed until this date, and upon which they had figured according to old prices. And in regard to factories it was pointed out that these had to come into competition with factories in other places which were working ten hours per day, with two hours off on Saturday, and it would be unfair to ask them to work under such disadvantageous circumstances as the nine hour system would entail on them. The union considered the proposal but did not entertain it, and sent a deputation to urge the demands originally made. The men say that in October the building season will be practically over, and that the concession of the nine hour system at this date would be of little advantage to them. The plasterers who went out did so on the ground that non-union carpenters were being employed.
